PROFESSIONAL EXPERIENCE

TAJ Bank Plc | Lagos, Nigeria

Customer Service Support (Operations)

June 2025 – Present

- Investigate and coordinate the resolution of electronic banking transaction issues, including failed transfers, POS, debit card, and mobile banking disputes, by logging cases in Microsoft Dynamics CRM and liaising with relevant operational teams.

- Handle an average of 10–15 customer interactions daily, providing timely support on banking enquiries, service requests, and electronic banking issues while ensuring a high standard of customer experience.
- Monitor pending transaction reversals, follow up with Ebanking, Card Services, and Digital Banking teams, and keep customers informed until cases are fully resolved.
- Escalate complex operational issues through approved channels to facilitate prompt investigation and resolution in accordance with internal procedures.
- Developed an automated reminder workflow using Microsoft Power Automate and Microsoft Excel to notify Relationship Officers of outstanding Authority-to-Collect documentation, reducing manual follow-up and improving operational efficiency.
- Designed and implemented an Excel-based account-opening documentation tracker, improving document traceability, operational record management, monitor outstanding requirements and strengthen audit readiness.
- Prepare weekly reports highlighting account documentation deficiencies and monthly legal search reports to support compliance monitoring and operational decision-making.
- Coordinate customer notifications for the collection of Cheque books, Naira and Dollar debit cards, and tokens, ensuring timely communication and improved service delivery.
- Maintain organized operational records and documentation, introducing a structured filing system for daily operational tickets, which contributed to improved audit readiness and positive departmental audit outcomes.
- Prepare and distribute weekly operations department meeting minutes through email, track action items, and follow up on outstanding tasks.
- Collaborate with Relationship Officers, Operations, Compliance, Card Services, and Digital Banking teams to resolve customer issues, streamline operational workflows, and enhance service delivery.
- Prepare weekly reports of account opened, both corporate and personal, number of cards issued and token.

Federal Mortgage Bank of Nigeria | Enugu, Nigeria

Customer Service Representative/Refund Operation

February 2023 – March 2024

- Processed National Housing Fund (NHF) refund applications for retired contributors by reviewing customer records, verifying contributions, and preparing refund documentation for approval.
- Prepare NHF refund using automated Microsoft Excel templates to accurately calculate customer contributions.
- Processed NHF registrations and mortgage loan applications while ensuring documentation was complete and complied with established procedures.

- Responded to customer enquiries relating to NHF registration, mortgage products, refund processes, and account services through in-person interactions, email, and telephone support.
- Reviewed customer records, prepared supporting documentation, and collaborated with internal departments to facilitate timely processing of refunds and loan applications.
- Maintained organized customer records and performed administrative duties, including document filing, scanning, correspondence management, and data entry to support efficient office operations.

PROCESS IMPROVEMENT

Authority-to-Collect Reminder Automation | *Microsoft Power Automate, Excel*

- Designed and implemented an automated reminder workflow for outstanding Authority-to-Collect documentation, improving follow-up consistency and reducing manual administrative effort.

Account Opening Documentation Tracker | *Microsoft Excel*

- Developed an Excel-based tracker to monitor outstanding account-opening documentation, improving document traceability and which enhanced audit readiness.

Operations Documentation Improvement

- Introduced a structured filing system for daily operational tickets, improving record accessibility and contribute positive departmental audit outcomes.
